

UNIFIED DIGITAL SUBSCRIBER LINE SELF-INSTALLATION
PROCESS AND KIT

Abstract of the Disclosure

5

A digital subscriber line self-installation kit comprises an optional network card, a digital subscriber line modem, at least one digital subscriber line filter, a computer-readable medium whose contents
10 comprise computer-readable connection software code, and an instruction manual. The instruction manual describes a unified installation process for the network card, the digital subscriber line modem, the at least one digital subscriber line filter, and the
15 computer-readable connection software code, wherein the unified installation process requires at most one operating system selection step by a user.
